Att: Serious Fraud:

Reference to your response back in 2010, Ref: C0101- Tanya Peterson.

We were dealing with Owen Turner at the time. We also asked you to investigate my corrupt Lawyer on the 17/7/2015 (Ref: 2015-777) so we have had communication in the past.

We have come along way since 2010. Our investigation have uncovered corruption, fraud leading into treasonous activities towards, not only my family, but thousands of other returned servicemen and Her Majesty the Queen today.

As for my grandparents estate which was hidden into Native Lands then transferred into Provisional State Forest then State Forest. Later to be sold on to foreign interests. Government refuses to address these serious acts.

The Ministry of Justice dated 14/2/2017 chose to put their own personal opinion of events, and then allowing Parliament to publish it, with out checking the facts. This is fraud today.

When documents were supplied to the Solicitor General on the 5/4/2017, she also chose to perverted the course of justice by not investigating. We had supplied the Solicitor General the file that you have in front of you today. This was tabled in Parliament by NZ First Party, Fletcher Tabuteau, myself and my 98 year old father on the 6/9/2016. We presented in person the over view of the Petition to the 9 Members of the Primary Production Select Committee. You will see in the over view and hear on the audio tape that the committee were well aware of the treasonous acts towards our veterans, they even joked about it. (Refer to audio tape) Treason had been raised on three occasions in Parliament. The only conclusion we arrived at, is that the Members of Parliament (past and present) have a personal interest on Soldiers Holdings today. This would explain why the Ministry of Justice, chose to write and publish their own personal opinion of events, which were false. The Ministry of Justice has no credibility so how can they address the Maori Military Veterans claim using the same expert that wrote this report, Professor Ashley Goulds' credibility is now in question. This is when specialised units like Serious Fraud come into power.

This to explains why the Solicitor General has suppressed the evidence of proof for this claim. The timber alone on my grandparents estate runs into the billions. This does not include the illegal mining-oil-gas-minerals-forestry from other Soldiers Holdings. (Ref: NZ year Book 1931 pg: 413 Revaluation on Soldiers Properties.) Empires were built on the back of our Soldiers Estates, right through to the present date.

Over the 9 years of investigating into our returned soldiers, this would have to be, the biggest cover up in history, from our government.

When you investigate the seriousness of the corruption within government, it might be a good idea to come through to Rotorua and view the evidence of proof yourself. There seems to be a lot of false Government documents, not only in Archives NZ but Lands Information.

Example: The three maps we have provided, shows you that Government was conspiring to commit treason against the Crown on Soldiers Estates. My grandfather received his block in 1916, for the map of Soldiers Holdings is false. Today the land is in foreign ownership under a Maori title.

There could be another reason why the Solicitor-General has covered it up and chose not to investigate, is it because it's the Election year, this is the last thing the Government would want, is a full investigation into Government Departments within Parliament. They too have committed treason by perverted the course of justice.

The Solicitor-General has not addressed any of the serious issues which was put in front of her, regarding to the corruption within Primary Production Select Committee and the Ministry of Justice. If the Solicitor-General does not have the ability to investigate, then why would she chose to hold onto it for 5 weeks and not pass this on immediately to the rightful authority, for she should know, for she is the Solicitor-General. Are they all corrupt right from the top. The small amount of evidence I have submitted proves it, other words she has no power to investigate Treason within Government and Parliament. Treason affects everyone in this country. Don't understand why the Military deployment hasn't been activated, or is this what the Solicitor-General is afraid of, on her watch. Wayne Duggan, my researcher has full authority to act on my behalf.

Yours sincerely

Tanya Peterson
