ATT: Serious Fraud Office (Ref: 160360)

Dear Sarah,

Thank you for returning our file, but we would like to use the OIA to retrieve the findings of your report, starting with a couple of questions:

Could you provide me with the documentation on your findings on how you came to a decision not to investigate, as this involves many Ministers throughout the Government Departments, including your superior, Una Jagose Solicitor General, who also choose to commit treason by not addressing the seriousness of our claim.

Treason has been raised in Parliament along with the supporting documents. When you viewed the two historic maps, this shows there were eight counts of High Treason on Soldiers Holdings, for an example. We want your report, under the OIA as evidence, for our investigation to be presented to a higher power further down the line.

I want you to explain how the Ministry of Justice is not accountable, when publishing false allegations against Members of Her Majesty Armed Forces. This has also been brought up to the Prime Minister, and has chosen not to redress these serious issues.

Serious Fraud have perverted the course of justice by not acknowledging the serious allegations against Government that's been provided for your action.

On a personal note, why would Government commit treason by removing the Treason Legislations, if there were no treasonous activities taken place, past and present?

Yours sincerely

Tanya Peterson
