ATT: Auditor General,

I have attached several files regarding my Petition. The over view to the Select Committee, and the report from the Ministry of Justice, who chose to write and publish there own personal events, this alone is a criminal act. The grievance I have with the illegal bankruptcies along with the treasonous activities, past and present towards my family and many other veterans from W.W.1.

All Government Departments including Parliament, the Solicitor General refuses to address the seriousness of these crimes and have chosen to pervert the course of Justice.

As you will discover reading through the documents that no one wishes to be held accountable for the corrupt actions from a higher power in Government..

If you are getting strings pulled from an other higher power, please register the files with the House of Lords.

We need a postal address so we can send the audio tape. This is mentioned often as evidence.

Look forward to your response

Yours sincerely  
Tanya Peterson
