Att: Mr Baughen Governor General

Dear Sir,

The documents that's been attached to this e-mail, will prove to you beyond a reasonable doubt, that there is a cover up within the Government Departments in Parliament. The Ministry of Justice, who chose to write their own personal events, and not address the issues that was raised in Parliament, then have this published under the Petition of Peterson 2014/72 without a thorough investigation. Their research consists of two files only from Archives NZ. Was this to justify their actions by not addressing the treasonous acts that's been raised?

Is Parliament and the Ministry of Justice along with Crown Law afraid of the truth coming out after 100 years. This is classed as lese-majesty.

My grandfather served on three different occasions for the Empire, along with three other loyal members of my family. Leaving NZ shores from 1899-1945. Then to dishonour my grandfathers military service by publishing false allegations to discriminate his loyalty to King and Country. This report came from the Ministry of Justice today, stating. (That he was determined to be

permanently unfit for further military service.) The credibility of our Ministers and Crown Law should be under scrutiny, and why isn't it?

If a Government Department chooses to change events to justify their actions, who then in Parliament gives the Ministry of Justice the authority to change historic events that's been recorded in history? (Treason)

What happens if the Ministry and Ministers publish false allegations against any member of the Royal family. Would you address this or go ahead and publish it?

Please take personal interest of the report from the Ministry of Justice with their personal opinion and by not addressing the issues at hand.

The over view speaks of treason on three accounts, with many other serious events. They have perverted the course of justice by not addressing these serious acts against our returned veterans and country.

Who gave the right for the Minister of Justice to revoke the death penalty for Treason in 1989? Does this have something to do with the State Owned Enterprise Act of 1985?

Is this another reason why Government refuses to address?

Just for your interest, the Meccano Set has been located in Auckland as it's been designed to be erected anywhere at anytime in NZ.

If you can not bring forward justice for my family, please pass this on to the Head of State, for this is the Queens responsibility to address the treasonous activities against her Armed Forces, (past and present) leading into illegal bankruptcy caused by Government to our Returned Veterans W.W.1.

Don't pass this on to some Minister as they had the opportunity to

address this and they chose not to.

This must be addressed by Her Majesty as Treason has been raised in Parliament on several occasions.

Yours sincerely

LEST WE FORGET

GOD SAVE THE QUEEN
