Dear Lisa,

It was nice speaking with you on Wednesday. Sorry wrong timing, old friend turned up, had a few beers.

My friend brought a few things to my attention again. Crown Lawyers sole job is to represent the Crown and not some corrupt public servant, who got caught with their fingers in the till, past and present.

The second point; Crown Lawyers work for the Crown to enforce the Law to keep the democracy in order.

We have been dealing with several Government Departments for several years. From the beginning Lawyers, Legal Aid, Law Society, Commissioners, Ombudsman, Legal Aid Tribunal, now Parliament have closed all doors, and refuse to release any form of documentation of proof that these events had never taken place.

This is why we are now in the process of filing for a Royal Commissioner of Inquiry.

Over all the years of research that has been under taken, I do not know how the Solicitor General is going to address this. The Ministry of Justice have published their findings, which is false. A retraction on their findings is not going to cut it. The Justice Department has also degraded one of our NZ decorated heroes by putting their own opinion forward, what a bloody disgrace.

Government has committed treason by not addressing the treasonous activities. How is this going to be addressed. When one covers up treason today they will be prosecuted for perverting the course of justice by conspiring to cover it up.

Please send a progress report, as I like my files up dated.

Yours sincerely

Wayne Duggan
