We still have not receive the files that I have asked for over two weeks ago.
We would like to add to the Longdon and Pittams file, we have more documents
that we have at hand, so we will put it together in the rightful order, and send it back.

Then we will be able to understand where we are all at.

We have tried on several occasions to send off the information that you requested, but ever
since our website was set up, we have had nothing but trouble cant get things out or in,
that has some form of importance.

Yours Sincerely
Tanya Peterson

Subject: Reminder.

Kia ora Tanya, I apologise for the delayed response - we have been away at a hearing and our server has been
down for the last week. I will make this matter a priority next week and will return the files as soon as possible.

I believe Wayne has also asked for the Pittiams and Longdon files, but as yet we have not
heard from you since Legal Services Tribunal Investigation. We are beginning to wonder if
you are still practicing law, I do hope all of our files are safe as their are many years of research,
and money well spent, but you would appreciate our concern.

Please register the files as soon as possible, thanks.

Your sincerely
Tanya Peterson
