ATT: Solicitor General

Now that you have realised I'm to seek legal attention for our claim. I would like you to submit our grievance to Crown Lawyers, for it is they, that need to take this to another level, to support and honour our Queen today and our Veteran's from W.W.1. You could ask Janet Mason to appoint Crown Lawyers to represent this historic claim, as she is aware of the veteran's been misrepresented by Government, for she is now going through verbal submissions, the wai 2500 under the Treaty Of Waitangi, with similar claims to ours. It's just that we have finished, and they are just beginning. Maybe we can advance the wai 2500 with our historic documents of evidence for a successful outcome, as you are well aware.

Your letter dated 16/June 2017 to Michelle Hippolite makes good reading, now you would be able to help with our veteran's claim.

We can't be racist here, as we seem to be heading for an apartheid, if one doesn't tread carefully, with you personally supporting the Maori Veteran's inquiry and have funding from the Ministry of Justice.

Look forward to your response

Yours sincerely
Tanya Peterson
